Ghadir Chamas

COMPUTER SCIENCE STUDENT

ghadirshamas12@gmail.com 70 017 865 https://www.linkedin.com/in/ghadir-shamas

EXPERIENCE

Full Stack Web Developer

Built responsive websites including a Lebanese train station ticket booking system, fully connected to a PHP/MySQL backend for real-time reservations , in addition to other websites with API's integration using .NET.

AI Automation

Built an automated job-application tracking system (Make.com, Airtable API, Slack API) that uses AI to classify emails by status (accepted/rejected/interview/unrelated) and logs company, role, contact, and date to Airtable, with daily Slack alerts — saving an estimated 3–5 hrs/week. Also built a free filter-based version (no AI) for users without paid API access

Remote CS Instructor *EGS UNIVERSITY*

- Delivered 2 computer science courses to undergraduate students remotely
- Prepared and presented lectures, assignments, and hands-on coding sessions via the university website.
- Provided mentorship, feedback, and technical support to students throughout the semester.

Hash Academy – Community Organizer *HASH*

-Organize and host cybersecurity workshops, meetups, and hands-on labs to promote ethical hacking and cybersecurity awareness, while collaborating with global cybersecurity experts.
-Contribute to the growth of the cybersecurity community by fostering a collaborative and inclusive environment

Software Project Developer *LEBANESE UNIVERSITY*

Built a home interior design system for war-affected individuals as part of a software engineering course; handled stakeholder interviews, system modeling (UML diagrams), and integrated inventory-linked furniture planning.

EDUCATION

Computer Science Bachelors

Lebanese University-faculty Of Science dedicated to completing a

degree in this major with a keep interest in web development .

Borj Al Barajeneh Public **High School for Girls** 2020-2021

SKILLS

HTML ,CSS ,Javascript ,React
Java ,C,PHP,MYSQL, .NET
Mentorship ,Leadership ,Team Coordination ,Event Planning.
